## About Me

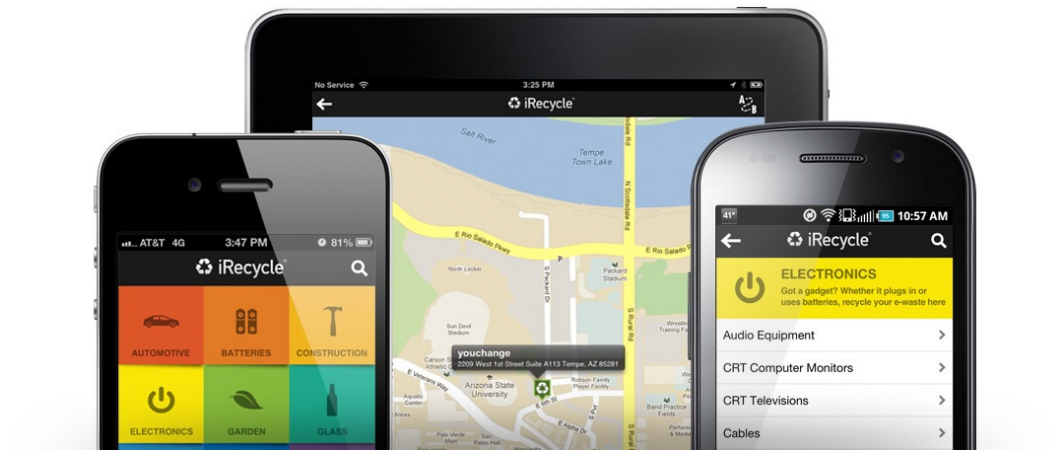

I'm an App Developer specializing in iOS. I've been developing Apps for almost 6 years now. Notably, I've had an App Featured by Apple 2 years in a row. I've had a top #3 selling paid App in the App Store. I've built an App Development company to over a quarter million in revenue over 2 years.

In 2012, I started collaborating on a Virtual Yoga studio called [Joyful Breath Yoga](#). I still craft the digital experience for this project.

I also do freelance App Development with my new company [The App Chefs](#) to work on more meaningful and impactful App Development projects.

## Notable App

iRecycle- This is an App I created for [Earth911](#). It was featured by Apple 2 years in a row. Mentioned in numerous press outlets including [Mashable](#), [Treehugger](#), [Slash Gear](#), [Mother Nature Network](#), [Reuters](#), and many more!

It is currently being officially offered by Sprint and included in their Green ID pack: <http://green.sprint.com/apps.php>

Other Apps:

MBEConnect- I created this Digital Magazine from scratch for the iPad before any digital publishing solution such as Newsstand or Adobe Publishing to iPad was available for MBEConnect.

Banking App- I created this Banking App for a large publicly traded company which creates the banking software for over 500 banks and credit unions around the United States. I helped create a visual interface for their services and implement a new feature which allowed the remote depositing of checks into user's bank accounts.

**CSS Mobile-** Centralized Showings Service is the largest Real Estate Showings Application in the US with over 15 million scheduled showings a year. This was an Enterprise App I built for them on iPhone and iPad.
